

# excellence

## Millions of dots, each with a unique story

Every cell is a mystery waiting to be revealed. From phenotype, genomic expression, cytokine secretion, signaling activity or general health, flow cytometry is uniquely equipped to interrogate every facet of biology, all within a single cell. Let eBioscience flow cytometry reagents help you uncover the story that each cell contains within.

**Don't settle for average. Real insight starts with single cells.**

# BD Multicolor Flow Cytometry

## A comprehensive approach to advancing your science

Working together to make  
your science more revealing

Multicolor flow cytometry should help to advance your science, not complicate it. That's why we work to deliver innovative solutions that help make your research efforts more efficient and more revealing. From brighter dyes and advanced instrumentation that resolve dim populations of interest to the availability of an expert at just the right time, it all works together to help you get quality data out of every study.

Helping all people  
live healthy lives

Our comprehensive catalog of flow cytometry systems, antibody specificities, fluorochromes, tools, and world class support provide flexibility and choice that can meet your unique needs. Furthermore, BD Biosciences is always working to move science forward, so your research efforts can be faster, easier, and more reliable.

Find out how multicolor flow cytometry from BD Biosciences can help to advance your science.
