

NEED TO RECRUIT?

Recruiting through *The Journal of Immunology* is an economical way to reach your target audience—the immunology community. Why pay more to reach geologists and physicists when you are seeking immunologists?

A ¼ page ad in *The JI* costs \$865.

POSTDOCTORAL POSITIONS IN IMMUNOLOGY and HOST-PATHOGEN INTERACTIONS University of California Irvine, Irvine, California

The Laboratory of Cellular and Molecular Immunology at the Gavin Herbert Institute, University of California Irvine, is seeking applicants for a Postdoctoral Research Positions in immunology funded by the National Institute of Health (NIH).

Research projects - The project will focus on herpes T cell immunity and immune-evasion, T cell epitope mapping, using a variety of immunological assays and biological systems. The study uses various animal models of ocular and genital herpes infection (i.e. HLA transgenic mice, HLA transgenic guinea pigs and HLA transgenic Rabbits) as well as samples from HSV seropositive symptomatic and asymptomatic patients.

For more information visit our lab at:

<http://faculty.sites.uci.edu/benmohamedlab/>

Requirements - The candidates must possess a Ph.D., or M.D. / Ph.D. in immunology, immuno-virology or related disciplines with peer-reviewed publications. The candidates should be highly motivated with the ambition and commitment to excel in a highly competitive and productive environment. Prior experience in FACS, Luminex, cellular immunology and/or confocal microscopy is required. Familiarity with animal models would be advantageous.

Application Procedure - To apply, please email your CV, a brief research statement and names of three references no later than June 30, 2018:

Dr. Lbachir BenMohamed
Professor/ Director
Laboratory of Cellular and Molecular Immunology
Email: Lbenmoha@uci.edu

Interested candidates should apply through UC Irvine's RECRUIT system at: <https://recruit.ap.uci.edu/apply/JPF04399>

The University of California, Irvine is an Equal Opportunity/Affirmative Action Employer advancing inclusive excellence. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, protected veteran status, or other protected categories covered by the UC nondiscrimination policy.

Let's get to the science

Invitrogen Attune NxT Flow Cytometer

Flow cytometry
instrument

Evolutionary technology. Revolutionary potential.

Designed to help you realize the full potential of flow cytometry, the Invitrogen™ Attune™ NxT Flow Cytometer is modern technology for today's science—and tomorrow's discoveries. Welcome to a new era in flow cytometry.
