IMMUNOLOGY2023™

MAY 11 – 15, 2023, WASHINGTON, DC

WWW.IMMUNOLOGY2023.ORG

Call for 2023 Award Applications

Deadline: December 19, 2022

More than half of members who submit abstracts receive travel grants or awards! Don't miss out—join AAI and submit your abstract for IMMUNOLOGY2023™ to be eligible for one of the many awards offered!

Lefrançois-BioLegend Memorial Award

Established to honor the memory of AAI member Dr. Leo Lefrançois, this award is intended to advance the career of a trainee who attends the AAI annual meeting and presents an outstanding abstract specifically in the area of mucosal immunology. The award recipient will receive a \$1,000 cash award and a certificate during an awards presentation program at the AAI annual meeting. *This award is generously supported through a grant from BioLegend and donations from friends and colleagues of Dr. Lefrançois.*

AAI Trainee Poster Awards

These awards provide a \$300 cash award to AAI trainee members whose first-author abstracts submitted to the AAI annual meeting are selected for poster sessions only and found to be exceptional by the AAI Abstract Programming Chairs. Selection is based on the originality and significance of the research being presented.

Pfizer-Showell Travel Award

This award recognizes the professional promise of an early career investigator (assistant professor or equivalent) by assisting the award recipient with travel to the AAI annual meeting. Selection is based on career progress and submission of an outstanding abstract selected for podium presentation in a block symposium at the meeting. The award recipient will be recognized and presented with a certificate at an awards presentation program at the AAI annual meeting. Support of up to \$1,500 will be provided for meeting registration and travel. *This award is supported through an endowment from Henry J. Showell and Pfizer, Inc.*

AAI-Thermo Fisher Trainee Achievement Awards

These awards recognize up to six promising trainees in the field of immunology. Selection is based on career promise and presentation of an outstanding first-author abstract selected for podium presentation in a block symposium. Awardees will receive a \$1,000 cash award and reimbursement for meeting expenses. *These awards are generously supported by Thermo Fisher Scientific.*

AAI Undergraduate Faculty Travel Grants

These grants assist undergraduate faculty in attending the AAI annual meeting. Each grant will also support travel costs for an undergraduate student of the recipient's selection. A grant of up to \$1,250 is awarded to the undergraduate faculty member, and a grant of up to \$1,000 is awarded to the selected undergraduate student.

AAI Early Career Faculty Travel Grants

These grants assist young investigators (assistant professor or equivalent) in attending the AAI annual meeting. Recipients will be reimbursed up to \$1,250 for registration and travel expenses.

Chambers-Thermo Fisher Scientific Memorial Award

Established to honor the memory of AAI member Dr. Cynthia Chambers, this award is intended to advance the career of an early career scientist who attends the AAI annual meeting and presents an outstanding abstract specifically in the area of cancer biology. The award recipient will receive a \$1,000 cash award and a certificate during an awards presentation program at the AAI annual meeting. *This award is generously supported through a grant from Thermo Fisher Scientific.*

Lustgarten-Thermo Fisher Scientific Memorial Award

Established to honor the memory of AAI member Dr. Joseph Lustgarten, this award is intended to advance the career of a mid-career scientist who attends the AAI annual meeting and presents an outstanding abstract specifically in the area of immune regulation. The award recipient will receive up to \$1,250 in travel reimbursement and a certificate during an awards presentation program at the AAI annual meeting. *This award is generously supported through a grant from Thermo Fisher Scientific.*

AAI Trainee Abstract Awards

These awards provide a \$500 cash award to AAI trainee members whose first-author abstracts submitted to the AAI annual meeting are selected for podium presentation in block symposia.

AAI Laboratory Travel Grants

These grants assist mid-career and senior investigators in attending the AAI annual meeting. Applicants must hold an appointment of associate professor, full professor, or equivalent; have limited research funding; and be a first or last author on one or more abstracts submitted to the annual meeting. Each grant will provide two travel awards of up to \$1,250 each: one to the PI or laboratory director and another to a member of their lab, chosen by the PI or laboratory director. Recipients will be reimbursed for registration and travel expenses.

AAI Minority Scientist Travel Awards

These awards assist eligible underrepresented minority (URM) scientists, including trainees and early-career faculty members, in attending the AAI annual meeting. Recipients will be reimbursed up to \$1,250 for registration and travel expenses.

AAI Courses in Immunology

2023 Introductory Course in Immunology

July 11–16, 2023

UCLA Luskin Conference Center, Los Angeles, California

**Course Director: Helen S. Goodridge, Ph.D.,
Cedars-Sinai Medical Center**

This comprehensive two-part course, taught by leading experts, provides an in-depth overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. **Part I (July 11–13)** is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. **Part II (July 14–16)** is a clinically oriented lecture series focusing on specialty areas. Parts I and II may be taken independently at the discretion of the student.

2023 Advanced Course in Immunology

July 23–28, 2023

The Westin Copley Place, Boston, Massachusetts

**Course Director: Wayne M. Yokoyama, M.D., DFAAI,
Washington University School of Medicine**

Established in 1966, this intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. World-renowned immunologists will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the basic principles of immunology and laboratory techniques.

The Career Advisory Board

A RESOURCE FOR SENIOR POSTDOCS AND EARLY-CAREER FACULTY

Have you just started your first lab? Trying to juggle research, teaching, and service?
Are you facing new and puzzling issues that an established scientist can answer?

The Career Advisory Board (CAB) is a referral service that matches senior postdocs (start of fourth year and beyond) and early-career PIs who submit requests for guidance on specific career issues with more senior scientists with experience and insights in those areas. The program is not meant to replace the mentoring programs at a scientist's home institution, but rather to serve as a resource for senior postdocs and early-career PIs to obtain advice on a specific question from established investigators outside of their home institutions—often through a single phone call.

Selected Topics

- Balancing family and work
- Timing for first grant submission
- Recruiting
- Handling personnel issues
- Managing a lab
- Finding a mentor
- Building networks
- Preparing for leadership
- Balancing service obligations
- Teaching
- Serving on NIH study sections

ELIGIBILITY: The CAB is open to all senior postdocs (start of fourth year and beyond) and early-faculty AAI members.

FASEB's New Diversity Programs

FASEB is further advancing its diversity and inclusivity efforts by launching the FASEB Diversity, Equity, Accessibility, and Inclusion (DEAI) Program, the first-of-its-kind to provide a suite of diversity and inclusivity programs for working scientists throughout the life sciences.

To enhance diversity, equity, accessibility, and inclusion in the life sciences, FASEB's new programs for working scientists throughout the life sciences include:

FASEB CARES

Career Advancement and Research Excellence Support

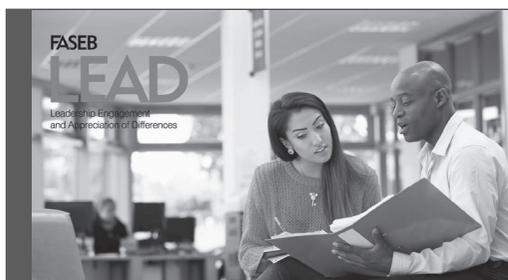

provides financial support to alleviate financial burdens associated with caregiving, enabling FASEB society members to continue their scientific training, professional development, and career progression.

FASEB FRIENDS

Fostering Recruitment, Innovation, Engagement, and Diversity in Sciences

is an ongoing outreach initiative that strives to increase diversity among FASEB and its member societies by promoting career advancement of the biological and biomedical research workforce from historically excluded communities.

FASEB LEAD

Leadership Engagement and Appreciation of Differences

is a reverse mentoring program that pairs senior-level professionals with junior-level mentors to gain different perspectives of individual, group, and cultural views within the workplace and the scientific research communities.

The Journal of **Immunology**

EDITOR-IN-CHIEF *The Journal of Immunology*

The American Association of Immunologists, Inc. (AAI) seeks applicants for the position of Editor-in-Chief (EIC) for its flagship publication, *The Journal of Immunology* (*The JI*), the most-cited journal in immunology.

The EIC is responsible for maintaining *The JI* as a definitive resource within the research community. The EIC will do so by ensuring the scientific excellence of the content and the integrity of the peer-review process. To that end, the EIC will recommend an editorial board for appointment by the AAI Publications Committee and approval by the AAI Council; be responsible for the oversight of editorial conduct and the peer-review process; address concerns of authors; and make final decisions on manuscript publication. The EIC will address allegations of author misconduct and act in accordance with *The JI* Editorial Policies and Practices, and AAI policy.

The EIC is responsible to the AAI Publications Committee and, ultimately, to the AAI Council, and is an *ex officio* member of both groups.

Applicants are expected to have an accomplished scientific career in immunology or a related field with a significant publication record, in addition to appropriate editorial experience. Candidates should possess strong leadership qualities, intellectual vision, and outstanding interpersonal skills. Applicants must be active members of AAI in good standing.

Candidates should understand and be ready to immediately address the competitive nature of publishing in the current open-access environment.

The term of service for this position is from January 1, 2024, to June 30, 2028. The appointed EIC is expected to overlap with the incumbent EIC starting July 1, 2023, to ensure a smooth transition of responsibilities. This position is considered to be part-time and while the EIC receives substantial support from the AAI journals' staff, the successful candidate should expect to spend at least 20 hours per week on EIC duties. A stipend and associated expenses are provided. Travel to the AAI annual meeting and two Council meetings per year is required.

Interested individuals should submit a curriculum vitae, a succinct letter of interest and qualifications, and a statement on their ideas for the direction of *The JI* in its pursuit of scientific excellence and innovation.

Applications will be accepted through February 17, 2023.
