THE JOURNAL OF IMMUNOLOGY

Manuscripts should be typewritten and carefully revised before submission and should be sent to Dr. Arthur F. Coca, Pearl River, New York, or Dr. John C. Torrey, 1300 York Ave., New York City. Articles in French or German will be accepted for publication. A summary in English, which will be prepared by the editor on request, must accompany such articles. Preliminary reports of not more than three printed pages may be accepted for immediate publication by the editors, provided the authors pay the cost of printing, which amounts to about \$4.50 per page. This plan will cause no delay in the appearance of the normal papers.

THE JOURNAL OF IMMUNOLOGY is issued monthly. Two volumes a year are issued.

Twenty-five reprints, without covers, of articles will be furnished to contributors free of cost when ordered in advance. A table showing cost of reprints, with an order slip, is sent with proof.

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly. Two volumes per year were published during 1926-1927.)

The subscription price is \$5.00 per volume. For countries outside the Postal Union, add 50 cents a volume. Two volumes ordered at the same time, \$9.00; overseas, \$10.00. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Arthur F. Coca, Pearl River, New York. All other subscriptions should be sent to the publishers.

Claims for copies lost in the mails must be received within 30 days, domestic (90 days, foreign) of the date of issue. Changes of address must be received at least two weeks in advance of issue.

Correspondence concerning business matters should be addressed to The Williams & Wilkins Company, Publishers of Scientific Journals and Books, Mount Royal and Guilford Avenues, Baltimore, U. S. A.

New subscriptions and renewals are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be credited to the next volume, and the renewal invoice therefore adjusted accordingly.

Subscriptions should be renewed promptly—To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Subscriptions, new or renewal, should be sent to the Publishers or to Agents listed below.

AGENTS

For Argentina and Uruguay: Beutelspacher y Cia, Sarmiento 815, Buenos Aires.

For Australia: Angus & Robertson, Limited, 89-95 Castlereagh Street, Sydney.

For Belgium: Henri Lamertin, 58 Rue Coudenberg, Bruxelles.

For the British Empire, except Australia and Canada: Baillière, Tindall & Cox, 8 Henrietta St., Covent Garden, W C 2, London, England.

For Canada: Wm. Dawson & Sons, Ltd., 91 Queen Street East, Toronto.

For China: Commercial Press Ltd., Paoshan Road, Shanghai, China.

For Denmark: H. Hagerup's Boghandel, Gothersgade 30, Kjobenhavn.

For France: Emile Bougault, 48 Rue des Ecoles, Paris.

For Germany: B. Westermann Co., Inc., Zimmerstrasse 35-41, Berlin SW-68.

For Holland: Scheltema & Holkema, Rokin 74-76, Amsterdam.

For Japan and Korea: Maruzen Company, Ltd. (Maruzen-Kabushiki-Kaisha), 6 Nihonbashi Tori-Nichome, Tokyo; Fukuoka, Osaka, Kyoto, and Sendai, Japan.

For Spain: Ruiz Hermanos, Plaza de Santa Ana, 13, Madrid.

THE WILLIAMS & WILKINS COMPANY

Publishers of Scientific Books and Periodicals

BALTIMORE, U. S. A.

PUBLISHERS OF: *Medicine, Journal of Urology, Journal of Pharmacology and Experimental Therapeutics, American Journal of Tropical Medicine, Journal of Immunology, Journal of Industrial Hygiene, Quarterly Review of Biology, Journal of Bacteriology, Annals of the Pickett-Thomson Research Laboratory, Chemical Reviews, Soil Science, Social Forces, Personnel Journal, Journal of Comparative Psychology, Mental Measurement Monographs, Studies in Psychology and Psychiatry, Occupational Therapy and Rehabilitation, Child Development, The American Journal of Clinical Pathology, Journal of Physical Chemistry, Journal of the Biological Photographic Association.*

INFUSION MEDIA

Bacto-Cystine Heart Agar

This new medium was developed in collaboration with Dr. B. W. Rhamy (see Amer. Jour. Clin. Path. 3, 121, 1933). It is used with Bacto-Hemoglobin, and when prepared for use, it resembles "chocolate" agar in appearance. It was originally developed for the cultivation of *Past. tularensis* and is also well adapted for propagating many other pathogens. It is an excellent medium to use for the preparation of bacterial antigens and vaccines.

Bacto-North Gelatine Agar

Bacto-North Gelatine Agar is prepared in accordance with the formula described by Spray (Jour. Lab. Clin. Med., 15, 179, 1929). When made up for use in the laboratory, it is an excellent substrate for the gonococcus and for many other delicate pathogens.

Bacto-Potato Infusion Agar

Bacto-Potato Infusion Agar is a new medium which has been developed for the propagation of *Dr. abortus*. It supports excellent growth of this organism, and may be used with equal satisfaction for isolation and for routine culturing.

Bacto-Brain Heart Infusion

Bacto-Brain Heart Infusion is an excellent fluid medium for the cultivation of the Streptococci and many other fastidious organisms. The medium, when made up for use, is rich in the nutriment required by these bacteria. Growth is rapid and luxuriant.
