

THE JOURNAL
OF
IMMUNOLOGY

VOLUME XXIV

BALTIMORE, MD.
1933

CONTENTS

NUMBER 1, JANUARY, 1933

The Use of an Intradermal Test in the Diagnosis of Trichiniasis. O. R. McCoy, J. J. Miller, Jr., and R. D. Friedlander	1
Further Studies in Serum Sickness. IV. Effect of Concentration of Normal Horse Serum upon Antibody Response. Louis Tuft.....	25
The Reticulo-Endothelial System and the Source of Opsonin. A. R. Elvidge.	31
Studies of Scarlet Fever. I. The Allergic Versus the Toxin-Antitoxin Hypothesis. Sanford B. Hooker.....	65
Studies in Tobacco Hypersensitivity. I. A Comparison Between Reactions to Nicotine and to Denicotinized Tobacco Extract. Marion B. Sulzberger.....	85

NUMBER 2, FEBRUARY, 1933

Studies on Cultures and Broth Filtrates of Staphylococci. I. Earl L. Burky.	93
Studies on Cultures and Broth Filtrates of Staphylococci. II. Earl L. Burky.....	115
Studies on Cultures and Broth Filtrates of Staphylococci. III. Earl L. Burky.....	127
Studies in Phagocytosis. I. Effect of Endotoxin on Phagocytosis of Gonococci. Joseph Wittenberg Max Lederer and Mollie Mollov.....	135
The Antigenic Property of Gelatin-Diazo-Arsanilic Acid. Sanford B. Hooker and William C. Boyd.....	141
The Relationship of the Tuberculin Proteins of Different Acid-fast Bacilli to Sensitization as Indicated by Their Reactivity in Sensitized Animals. Florence B. Seibert and Nelle Morley.....	149
The Power of Normal Human Sera to Inactivate the Virus of Poliomyelitis in its Relation to Blood Grouping and to Exposure. Claus W. Jungeblut..	157
Differentiation of Optically Isomeric and Related Cinchona Alkaloids by Quinine-sensitive Subjects. W. T. Dawson, J. P. Sanders and L. M. Tomlinson.....	173

NUMBER 3, MARCH, 1933

Merthiolate as a Preservative for Biological Products. III. Action of Merthiolate on Bacteriophage. H. M. Powell, W. A. Jamieson and F. G. Jones.....	185
The Immunologic Specificity of Brain Tissue. Julian H. Lewis.....	193
Comparison of the Combining, Antigenic, and Toxic Properties of Chemically Altered Diphtheria Toxoid and Toxin. L. Reiner.....	213
Adsorption of Diphtheria Toxoid by Cellulose Derivatives and Iron Hydroxide Gel. L. Reiner.....	221

H and O Agglutination Following Typhoid Vaccination and in an Unselected Group of Individuals. Anna Dean Dulaney, Walter T. Wikle, R. L. Stewart, J. D. Rayfield, J. K. Walker, Jr., and A. B. Preacher.....	229
H and O Agglutination in Typhoid Fever, Other Febrile Diseases, and in Vaccination. Anna Dean Dulaney and Walter T. Wikle.....	235
The Sedimentation Rate of Red Blood Cells of Tuberculous Rabbits Injected with Tuberculin. Jules Freund and Dee E. Frank.....	247
The Participation of Cutaneous Epithelium in Immunity Response. L. Dienes.....	253
Additional Note to the Article "Studies on Tobacco Hypersensitivity." Marion B. Sulzberger.....	265

NUMBER 4, APRIL, 1933

The Influence of Pregnancy and of Menstruation in the Power of Normal Human Sera to Inactivate Poliomyelitis Virus. Claus W. Jungeblut and Earl T. Engle.....	267
Influenzal Meningitis. The Relation of Age Incidence to the Bactericidal Power of Blood against the Causal Organism. LeRoy D. Fothergill and Joyce Wright.....	273
Inheritance as a Factor in Resistance to an Infectious Disease. I. The Uniform Reaction of an Inbred Strain of Animals. M. R. Irwin.....	285
Inheritance as a Factor in Resistance to an Infectious Disease. II. Differential Host Reactions and the Effects of Selection within a Population. M. R. Irwin.....	297
Inheritance as a Factor in Resistance to an Infectious Disease. III. The Distribution of Litter Mortalities in the Host Populations. M. R. Irwin.....	313
Inheritance as a Factor in Resistance to an Infectious Disease. IV. Tests for Evidence of an Acquired Immunity in the Resistant Population. M. R. Irwin.....	319
Inheritance as a Factor in Resistance to an Infectious Disease. V. The Correlations between Resistance of the Host and Certain Measured Variables. M. R. Irwin.....	329
Inheritance as a Factor in Resistance to an Infectious Disease. VI. The Correlation between Resistance and the Bactericidal Power of the Whole Blood. M. R. Irwin and T. P. Hughes.....	343

NUMBER 5, MAY, 1933

Chemical and Immunological Studies of the Pneumococcus. III. Cellular Carbohydrate Fractions. Augustus Wadsworth and Rachel Brown....	349
Serum Sickness in Rabbits. IV. Influence of Various Sera upon the Occurrence of Serum Sickness. Moyer S. Fleisher and Lloyd Jones.....	369
Serum Sickness in Rabbits. V. Immediate and Accelerated Reactions. Moyer S. Fleisher and Lloyd Jones.....	383
The Use of Rabbits in Standardization of Antisera against <i>Streptococcus hemolyticus</i> from Scarlet Fever and Erysipelas. Betty S. Kolchin.....	397
Studies in Tobacco Hypersensitivity. Marion B. Sulzberger and Emanuel Feit.....	425

CONTENTS

v

NUMBER 6, JUNE, 1933

Experimental Study of an Antipoliomyelitic Serum from Monkeys Artificially Immunized with an Organism Cultivated from Poliomyelitis Nervous Tissue. Frederick Ebersson with the technical assistance of William G. Mossman.....	433
On the Usefulness of Blood-grouping in Medicolegal Cases Involving Blood Relationship. Alexander S. Wiener.....	443
On the Comparative Phagocytic Activity of Macrophages and Polymorphonuclear Leucocytes. The Essential Similarity of Tropin Action with Respect to the Two Types of Phagocyte. Balduin Lucké, Max Strumia, Stuart Mudd, Morton McCutcheon and Emily B. H. Mudd.....	455
The Effect of Flagellar and Somatic Sensitization of the Typhoid Bacillus on Phagocytosis by Macrophages and Polymorphonuclear Leucocytes—Intracellular Digestion. Stuart Mudd, Balduin Lucké and Max Strumia.....	493
Electric Charge of Antibodies. Leo Olitzki.....	505
The Effect of Normal and Immune Staphylococcus Rabbit Serums on the Action of Staphylococcus Bacteriophage. Earl L. Burky.....	513
Individuality of the Red Blood Cells of Inbred Strains of Fowls. A. W. Kozelka.....	519
A Note on the Fractionation of Antimeningococcus Serum. Philip P. Murdick and Sophia M. Cohen.....	531
The Lipoidal Content of Antipneumococcic Horse Serum. Lloyd D. Felton and Gladys Kauffmann.....	543
Proof of the Presence of Agglutinogen "A" in All the Erythrocytes of Type AB. William C. Boyd and Matthew A. Derow.....	549
