

# THE JOURNAL OF IMMUNOLOGY

*Manuscripts* should be typewritten and carefully revised before submission and should be sent to Dr. Arthur F. Coca, Pearl River, New York. Authors will be charged for space in excess of 20 printed pages; also for all illustrations and for tabular matter in excess of 10 per cent of the text space.

THE JOURNAL OF IMMUNOLOGY is issued monthly. Three volumes a year are issued.

*Twenty-five reprints*, without covers, of articles will be furnished to contributors free of cost when ordered in advance. A table showing cost of reprints, with an order slip, is sent with proof. Orders for purchased reprints must be limited to 1,000 copies.

*Published monthly*, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly. Two volumes per year were published during 1926-1927.)

*The subscription price* is \$5.00 per volume. For countries outside the Postal Union, add 50 cents a volume. Three volumes ordered at the same time, \$13.50; overseas, \$15.00. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Arthur F. Coca, Pearl River, New York. All other subscriptions should be sent to the publishers.

*Claims for copies lost* in the mails must be received within 30 days (domestic). For the duration of the war, delivery overseas cannot be guaranteed and must be at subscriber's risk. Changes of address must be received within two weeks of the date of issue.

*Correspondence concerning business matters* should be addressed to The Williams & Wilkins Company, Mount Royal and Guilford Avenues, Baltimore, U. S. A.

*New subscriptions and renewals* are entered to begin with the first issue of the current volume. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be credited to the next volume, and the renewal invoice therefore adjusted accordingly.

*Subscriptions should be renewed promptly*—To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Subscriptions, new or renewal, should be sent to the Publishers or to Agents listed below.

## AGENTS

*For Australia:* Angus & Robertson, Limited, 89-95 Castlereagh Street, Sydney.

*For the British Empire, except Australia and Canada:* Baillière, Tindall & Cox, 8 Henrietta St., Covent Garden, W C 2, London, England.

*For Canada:* Wm. Dawson & Sons, Ltd., 70 King Street East, Toronto.

## *Isolation and Cultivation* of BRUCELLA

### *Preliminary Enrichment*

Isolation of Brucella strains from blood specimens is best accomplished by preliminary enrichment of the sample in medium prepared from Bacto-Tryptose Broth. For isolation from samples of infected milk no enrichment is required.

### *Isolation of Strains*

After enrichment [redacted] specimens are streaked on plates of Bacto-Tryptose Agar and the plates are incubated at 37°C. Milk samples are streaked on plates of Bacto-Tryptose Agar prepared with crystal violet to inhibit the streptococci and other Gram-positive organisms.

### *Differentiation of Types*

Bacto-Tryptose Agar to which thionin or basic fuchsin has been added is recommended for the differentiation of newly isolated strains of Brucella.

### *Mass Cultivation*

Bacto-Tryptose Agar, prepared without addition of dyes or other ingredients, supports luxuriant growth of all Brucella. It is an excellent medium for mass cultivation of the organisms for preparation of bacterial vaccines or antigens.
