

THE JOURNAL
OF
IMMUNOLOGY
VIRUS RESEARCH AND EXPERIMENTAL
CHEMOTHERAPY

VOLUME 51

BALTIMORE, MD.
1945

CONTENTS

NUMBER 1, JULY, 1945

Inhibition of Phagocytosis by Penicillin. Henry Welch, Ruth P. Davis and Clifford W. Price.....	1
Serological Reactions of Two Bacterial Levans. Edward J. Hehre, Dorothy S. Genghof and James M. Neill.....	5
The Administration of Certain Chemotherapeutic Agents to Mice by Incorporation of the Chemical in the Drinking Water: an Evaluation of the Method. S. D. Kramer and L. D. Bunch.....	15
Studies on the Relative Susceptibility of Young and of Full-Grown Rabbits to Intravenous Infection with Hemolytic Streptococci. Paul F. deGara.....	23
The Use of a Commercially Available Complement-Fixing Antigen for the Diagnosis of Elementary Body Types of Viral Infection. Alfred L. Florman.....	29
Reduced Acute Toxicity of Antigens in Saline-in-Mineral-Oil Emulsion. Seymour P. Halbert, Joseph Smolens and Stuart Mudd.....	39
Studies on the Hemolytic Streptococcus. VII. Comparison of the Results of Immunization against Scarlet Fever with Toxin and Aluminum-Adsorbed Toxoid of Streptococcus Scarlatina (NY5). Maud L. Menten, Harold H. Finlay and Marie A. Andersch.....	45
Immunologic Studies in Rheumatic Fever. I. Cutaneous Response to Type-Specific Proteins of the Hemolytic Streptococcus. B. Response to "Purified M" Proteins from Forty Known Types of the Hemolytic Streptococcus—Group A. Leo M. Taran, James M. Jablon and Helen N. Weyr.....	53

NUMBER 2, AUGUST, 1945

The relation of Antibody Response in Swine to Dose of the Swine Influenza Virus Inactivated with Formalin and with Ultraviolet Light. I. W. McLean, Jr., 1st Lt., M.C., Dorothy Beard, A. R. Taylor, D. G. Sharp and J. W. Beard.....	65
Studies of the Subgroups of Blood Groups A and AB. I. The Active and Passive Acquisition of Alpha ₁ (α_1) Agglutinins by A ₂ Patients as a Result of Blood Transfusion. Lawrence E. Young.....	101
Studies of the Subgroups of Blood Groups A and AB. II. The Agglutinogen A ₃ ; Its Detection with Potent B Serum and an Investigation of its Inheritance. Lawrence E. Young and Ernest Witebsky with the technical assistance of James Mohn.....	111
Studies on the Purification of the Syphilis Antigen. E. Fischer, R. Fischer-Dällmann and R. Bone.....	117

NUMBER 3, SEPTEMBER, 1945

A Comparison of the Value of Clarase, Penicillinase, and Cysteine Hydrochloride in Revealing the Presence of Contaminating Organisms in Preparations of Penicillin. Clara M. McKee and Bacon F. Chow.....	127
Immunological Relations between Types of Shigella Paradyserteriae (Flexner) and Other Shigellae. A. J. Weil, L. A. Barnes and M. Binder.....	133
Application of a Quantitative Complement-Fixation Test to the Serum Diagnosis of Typhus Fever. Florence M. Varley and Frederick R. Weedon.....	139
Addition of Nitrogen from Bovine Complement to Specific Precipitates. Otto Bier... ..	147
The Antigenic Relationship of Various Types of Shigella Alkalescens to Shigella Paradyserteriae. Erwin Neter.....	151
Conversion of Agglutinins and Precipitins into 'Univalent' (Non-Agglutinating or Non-Precipitating) Antibodies by Photodynamic Irradiation of Rabbit-Antisera vs Pneumococci, Sheep-Red-Cells and Sea-Urchin Sperm. Albert Tyler.....	157
Experimental Studies on the Yellow Fever Protection Test. K. C. Smithburn.....	173

NUMBER 4, OCTOBER, 1945

Spontaneous Loss of Specificity of Absorbed Immune Hemagglutinating Sera. William C. Boyd, Lyle G. Boyd and Estelle R. Warshaver.....	191
The Standardization of the Cardiolin-Lecithin-Cholesterol Antigen in the Complement-Fixation Test for Syphilis. Elizabeth Maltaner and Frank Maltaner...	195
Studies on the A-Antigenic Polysaccharide from the Abomasus of Cattle. Erik Jorpes and Torsten Thaning.....	215
On the Inhomogeneity of the Urinary Human A-Substance. Erik Jorpes and Torsten Thaning.....	221
Distribution of the Blood-Groups, Subgroups, and Rh Blood-Types in Japanese. Edward B. Miller and Tatsuo Taguchi.....	227
Immunological Studies on Scorpions. E. Grasset, A. Schaafsma and J. A. Hodgson...	231
Methods for the Production of the Alpha and Theta Toxins of <i>Clostridium welchii</i> . Mark H. Adams and Edelmira D. Hendee.....	249
Antigens of <i>Shigella sonnei</i> . K. M. Wheeler and F. L. Mickle.....	257
p-Aminobenzoic Acid Synthesis by <i>Neisseria gonorrhoeae</i> in Relation to Clinical and Cultural Sulfonamide Resistance. Maurice Landy and Ruth B. Gerstung.....	269
A Specific Antigen Recovered from Tissue Infected with <i>M. paratuberculosis</i> (John's Bacillus). Bjorn Sigurdsson.....	279
The Effect of Environmental Temperature on Experimental Influenza in Mice. S. Edward Sulkin.....	291
The Type-Specificity of Immune Protection Against <i>Shigella paradysenteriae</i> (Flexner). A. J. Weil and K. Farsetta.....	301

NUMBER 5, NOVEMBER, 1945

Food Poisoning Staphylococci and the Order of Their Resistance to Penicillin. I. Inhibition of Coagulase Production. Herman C. Mason.....	307
Production of <i>Clostridium perfringens</i> Alpha Toxin. Milan A. Logan, Alfred A. Tytell, Irvin S. Danielson and Alice M. Griner.....	317
Anaphylactic Properties of Photo-Oxidized Rabbit-Antisera (vs Sheep-Erythrocytes and Pneumococci) and Horse-Antiserum (vs Diphtherial Toxin) Containing 'Univalent' Antibodies. Albert Tyler.....	329
Protective Value of 'Univalent' Antibodies Produced by Photo-Oxidation of Anti-Pneumococcal Rabbit-Serum and Antidiphtheric Horse-Serum. Albert Tyler and Stanley M. Swingle.....	339
The Determination of Meningococcal Antibodies by a Centrifuge-Agglutination Test. Ruth L. Mayer and Harry F. Dowling.....	349
The Role of Ether Anesthesia in the Production of Influenza Virus Pneumonia in Mice. I. N. Dubin, M.D.....	355
An Electrophoretic Study of an Anti-Influenzal Horse Serum. Ralph W. G. Wyckoff and Morris Rhian.....	359
Serologic Studies in Typhus-Vaccinated Individuals. I. The Effect of a Stimulating Dose of Typhus Vaccine on the Weil-Felix and Complement-Fixing Antibodies. C. J. Zarafonetis, Maj., M.C., A.U.S.....	365

NUMBER 6, DECEMBER, 1945

Serologic Studies in Typhus-Vaccinated Individuals. C. J. Zarafonetis, Maj., M.C., A.U.S.....	375
The Action of Synthetic Detergents upon Certain Strains of Bacteriophage and Virus. Morton Klein, Seymour S. Kalter and Stuart Mudd.....	389
Studies on the Mechanism of Host Resistance in Experimental Leptospirosis Ictero-hemorrhagica. Abram B. Stavitsky.....	397
Factors Influencing Leukoagglutination by Antileukocytic Sera. Bernhard Steinberg and Ruth A. Martin.....	421
Book Review.....	427
Index.....	429
