

THE JOURNAL
OF
IMMUNOLOGY
VIRUS RESEARCH AND EXPERIMENTAL
CHEMOTHERAPY

VOLUME 52

BALTIMORE, MD.
1946

CONTENTS

NUMBER 1, JANUARY, 1946

Protection Between Strains of Heterologous Agglutinogenic Types of Beta Hemolytic Streptococci of Group A. III. Further Observations. Alice C. Evans.....	1
The Standardization of the Cardiolipinlecithin-Cholesterol Antigen in the Precipitation Test for Syphilis. Rachel Brown.....	17
Studies with the Somatic Antigen of <i>Shigella Paradysenteriae</i> (Flexner). Joseph Smolens, Seymour P. Halbert, Stuart Mudd, Beatrice W. Doak and Luis M. Gonzalez.....	41
The Use of Papaverine Hydrochloride in the Prevention of Anaphylactic Shock in Guinea Pigs. D. Edward Frank.....	59
Studies on the Effects of X-Rays on Phagocytic Indices of Healthy Rabbits. A Preliminary Report. John C. Glenn, Jr.....	65
Leukoagglutination Differentiation of Normal Leukocytic and Leukemic Cell-Types. Bernhard Steinberg, M.D., and Ruth A. Martin, M.T.....	71
A Method of Producing in Inbred Albino Rats a High Percentage of Immunity from Tumors Native in Their Strain. Paul Myron Aptekman, Margaret Reed Lewis and Helen Dean King.....	77
Precipitin-Reactions of Human Seminal Plasma. Victor Ross.....	87
Decreased Antigenicity of Coupled Hapten-Protein Antigen Resulting from Treatment with Too Much Hapten. William C. Boyd and Estelle R. Warshaver.....	97

NUMBER 2, FEBRUARY, 1946

The Enhancement of Circulating Antibody Concentration by Adrenal Cortical Hormones. Jeanne H. Chase, Abraham White and Thomas F. Dougherty.....	101
A Comparison of Rabbit and Mouse Antisera to <i>Shigella paradysenteriae</i> . Beatrice W. Doak, Seymour P. Halbert, Joseph Smolens and Stuart Mudd.....	113
Studies on Bacterial Viruses. I. The Effect of Certain Compounds on the Lysis of <i>Escherichia coli</i> by Bacteriophage. Robert J. Fitzgerald and Dorothea Babbitt..	121
Studies on Bacterial Viruses. II. Observations on the Mode of Action of Acridines in Inhibiting Lysis of Virus-Infected Bacteria. Robert J. Fitzgerald and Miriam E. Lee.....	127
Changes of the Serum Phosphatase Level after Infection of Cows with <i>Brucella abortus</i> . Werner Braun.....	137
Experimental Exposure of Human Subjects to Viruses of Influenza. Werner Henle, Gertrude Henle, Joseph Stokes, Jr., and Elizabeth P. Maris.....	145
<i>Shigella paradysenteriae</i> (Flexner) type II.VII. A. J. Weil and K. Farsetta.....	167
Propagation of Japanese B Encephalitis Virus in the Developing Chick Embryo. Hilary Koprowski, M.D., and Herald R. Cox, D.Sc.....	171
Book Review.....	187

NUMBER 3, MARCH, 1946

Weil-Felix and Typhus Complement-Fixation Tests in Relapsing Fever, with Special Reference to <i>B. Proteus</i> OX-K Agglutination. C. J. D. Zarafonetis, Maj., M.C., A.U.S., H. S. Ingraham, Lt., M.C., U.S.N.R., and J. F. Berry, 1st Lt., Sn.C., A.U.S.	189
The Effects of Immunization with Histamine Azoprotein on Histamine-Intoxication and Passive Anaphylaxis in the Guinea-Pig. Grange S. Coffin and Elvin A. Karat.	201
The Specific Polysaccharides of Types A, B, C, D, and F <i>Hemophilus influenzae</i> s. Catherine F. C. MacPherson, Michael Heidelberger, Hattie E. Alexander, and Grace Leidy.....	207

The Phase Variation of <i>Shigella paradysenteriae</i> (Flexner) Type IV. A. J. Weil, K. Farsetta, and V. Knaub.....	221
The Duration of Antibody-Formation After Injection of Killed Typhoid Bacilli in Water-In-Oil Emulsion. Jules Freund and Mary V. Bonanto.....	231
Antigenic Relationships of the West Nile, Japanese B Encephalitis, and St. Louis Encephalitis Viruses. Edwin H. Lennette and Hilary Koprowski.....	235
Quantitative Studies on the Neutralization of Pathogenic Agents in Tissues by Circulating Antibodies. VI. The Ai Values and the Avidities of Tetanal Toxins for Nerve Tissue and Antitoxin. Ulrich Friedemann, Alvin Hollander, and Frederick B. Traub.....	247
The Immunochemistry of Allergens. VIII. Precipitin Formation and Passive Transfer Reactions with Allergenic Proteins from Cottonseed and Castor Beans. E. J. Coulson, Joseph R. Spies, E. F. Jansen, and Henry Stevens.....	259
The Relationship of the Protein-Reserves to Antibody-Production. II. The Influence of Protein Repletion upon the Production of Antibody in Hypoproteinemic Adult White Rats. Robert W. Wissler, Robert L. Woolridge, C. Harold Steffee, Jr., and Paul R. Cannon.....	267
The Action of Penicillin on Staphylococci. John E. Blair, Miriam Carr, and Joseph Buchman.....	281

NUMBER 4, APRIL, 1946

The Preparation of a Potent Toxin of <i>Shigella dysenteriae</i> (Shiga) on a Semi-synthetic Medium and Its Use for the Preparation of an Alum-Precipitated Toxoid. Leo Olitzki and Leah Bichowsky.....	293
Studies on the Reversibility of the Antigen-Antibody Reaction. I. Correlation between the Effects of Homologous Polysaccharide on Capsular Swelling and Infectivity of Sensitized Pneumococci. Marion C. Morris and Helen V. Karr.....	301
Semliki Forest Virus. III. Propagation of the Virus in Developing Chick Embryos. K. C. Smithburn.....	309
The Behaviour of Platelets in Anaphylactic and Peptone Shock. E. Fidler and E. T. Waters.....	315
Studies in Human Malaria. I. The Preparation of Vaccines and Suspensions Containing Plasmodia. Michael Heidelberger, Manfred M. Mayer, and Constance R. Demarest.....	325
Precipitin-Production in Chickens. II. Studies on the In Vitro Rise of the Interfacial Titers and the Formation of Precipitins. Harold R. Wolfe and Eleanor Dilks....	331
Comparative Sensitivity of the Extraneural and Intracerebral Neutralization Tests in Following the Antibody Response in Man to Vaccination with Western Equine Encephalomyelitis Virus. Edwin H. Lennette and Hilary Koprowski.....	343
Index.....	355
