CONTENTS

Number 1, January, 1950

A Quantitative Study of the Arthus Phenomenon Induced Passively in the Guinea Pig. Baruj Benacerraf and Elvin A. Kabat	1
Production of Specific Antisera for Enzymes that Decompose the Carbohydrates of Pneumococcus Types III and VIII. Grace M. Sickles and Myrtle Shaw	21
Production of Specific Pneumococcus Carbohydrate-Splitting Enzymes in Media to	
which the Specific Substrate was not Added. Myrtle Shaw and Grace M. Sickles The Recurrence of Influenza A Prime in a Boarding School after 2 Years. M. Michael Sigel,	27
Albert W. Kitts, A. B. Light and Werner Henle.	33
Number 2, February, 1950	
The Occurrence in Human Plasma Fractions of the Antibodies to H. pertussis. John	
H. Hink, Jr., and Frederick F. Johnson	39
Lymphatic Tissue. T. N. Harris and Susanna Harris	45
Estimation of Potency of Scarlatinal Antitoxin by a Combined Flocculation and Rabbit Skin Test Method. S. S. Rao and P. J. Moloney	57
A Modified Habel-Sockrider Ultraviolet Irradiation Apparatus for Use in Serum and	
Vaccine Production. Virginia Bozeman, J. T. Tripp and Beth Berry	
A Nonspecific Heat-Labile Factor in the Serum Neutralization Test for Newcastle Disease Virus. Beatrice F. Howitt	73
The Inactivation of Rh Antibodies by Peroxidase. Philip F. Wagley, Irwin W. Sizer,	10
Louis K. Diamond and Fred H. Allen	85
Comparison of Two Different Antagonists as Inhibitors of Acriflavine Fastness	
of Trypanosomes. R. J. Schnitzer and D. R. Kelly	95
Joseph L. Melnick and Nada Ledinko	101
Number 3, March, 1950	
Studies on the Chemical Nature of a Normal Plasma Factor which Suppresses Variation	
of Brucella abortus. Leonard J. Cole and Werner Braun	
The Quantitative Estimation of the Removal of Bacteria from the Blood by the Various Organs of the Immunized Animal. Grace P. Kerby, Bernard C. Holland and Sam-	
uel P. Martin.	123
A Comparison of the Removal of Mucoid and Non-mucoid Variants of Klebsiella pneu- moniae Type B from the Splanchnic Circulating Blood of the Intact Animal.	
Grace P. Kerby	131
Immunity in Plague: A Critical Consideration of Some Recent Studies. Karl F. Meyer The Effect of Low Temperatures on Vaccines of Influenza Virus and on Purified In-	139
fluenza Virus. Kari Penttinen	165
The Relationship between Precipitin Titer and Number of Trichinella spiralis in In-	100
testinal Tract of Mice Following Test Infections. James R. Hendricks	173
Precipitin Production in Chickens. V. The Effect of Splenectomy on Antibody Formation. Harold R. Wolfe, Stata Norton, Eleanor Springer, Morris Goodman and	
Chester A. Herrick	179
Studies on Chick-Embryo Adapted Rabies Virus. II. Pathogenicity for Dogs and Use of	
Egg-Adapted Strains for Vaccination Purposes. Hilary Koprowski and Jack Black	185
Immunochemical Studies on Tobacco Mosaic Virus. VI. The Effect of Papain on the	105
Antibody-Antigen Complex. Saul Malkiel	203

iv contents

Relationships of Prosnigella to other Members of the Enterocacteriaceae. Philip L.	
Carpenter and C. A. Stuart	237
Acquired Immunity in Rabbits to Infection with Group A Type 30 Hemolytic Strepto-	
coccus: Its Relation to Antibodies to the M protein. Margaret D. Bailly	245
Number 4, April, 1950	
Colorado Tick Fever. Isolation of the Virus from Dermacentor andersoni in Nature and	ı
a Laboratory Study of the Transmission of the Virus in the Tick. Lloyd Florio,	
Mabel Stewart Miller and Edward R. Mugrage	
Colorado Tick Fever. Isolation of Virus from Dermacentor variabilis Obtained from	Ĺ
Long Island, New York, with Immunological Comparisons Between Eastern and	
Western Strains. Lloyd Florio, Mabel Stewart Miller and Edward R. Mugrage	
The Zone of Localization of Antibodies. V. An Attempt to Saturate Antibody-Binding	
Sites in Mouse Kidney. David Pressman and Herman N. Eisen	
Kidney Serum. David Pressman, Herman N. Eisen and Patrick J. Fitzgerald	
The Effect of Splenectomy on the Formation of Circulating Antibody in the Adult Male	
Albino Rat. Donald A. Rowley.	
The Formation of Complement Fixing and Neutralizing Antibodies After the Injection	
of Inactivated Rabies Virus with Adjuvants. Murray M. Lipton and Jules Freund	
Studies on Newcastle Disease Virus Encephalitis in Rhesus Monkeys. Herbert A.	
Wenner, Anne Monley and Richard N. Todd	305
Anne Monley and Richard N. Todd	
Mutation to Heat Resistance in Coliphage T5. Mark H. Adams and Gordon Lark	335
Collodion Particle Agglutination with Acute-Phase Serums and Immune Globulin in	L
Viral Hepatitis. W. Paul Havens, Jr., and Hazel L. Eichman.	349
Number 5, May, 1950	
Number 5, May, 1950	957
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood Immunization of Hamsters and Dogs against Experimental Leptospirosis. K. T.	
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373 381
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373 381 397
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373 381 397
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood	365 373 381 397
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood Immunization of Hamsters and Dogs against Experimental Leptospirosis. K. T. Brunner and K. F. Meyer. Quantitative Studies on Diphtheria Prophylactic and Some Considerations on the Assessment of Antigenicity. E. Carlinfanti. Biophysical Studies of Blood Plasma Proteins. XIII. Analysis of Immunological Heterogeneity of Human Gamma Globulin Fractions. Melvin Cohn, H. F. Deutsch and L. R. Wetter. Relation of Nutritional Deficiency in Man to Antobody Production. Henry H. Balch Serological Studies on Infectious Mononucleosis and Viral Hepatitis with Human Erythrocytes Modified by Different Strains of Newcastle Disease Virus. Alfred S. Evans A Note on the Booster Effect of Pneumococcus Capsular Polysaccharide. F. J. Murray,	365 373 381 397 411
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood Immunization of Hamsters and Dogs against Experimental Leptospirosis. K. T. Brunner and K. F. Meyer. Quantitative Studies on Diphtheria Prophylactic and Some Considerations on the Assessment of Antigenicity. E. Carlinfanti. Biophysical Studies of Blood Plasma Proteins. XIII. Analysis of Immunological Heterogeneity of Human Gamma Globulin Fractions. Melvin Cohn, H. F. Deutsch and L. R. Wetter. Relation of Nutritional Deficiency in Man to Antobody Production. Henry H. Balch Serological Studies on Infectious Mononucleosis and Viral Hepatitis with Human Erythrocytes Modified by Different Strains of Newcastle Disease Virus. Alfred S. Evans A Note on the Booster Effect of Pneumococcus Capsular Polysaccharide. F. J. Murray, K. A. Ludwig and M. J. Foter.	365 373 381 397 411
Heparin and Ocular Hypersensitivity. Malcolm W. Bick and Ronald M. Wood Immunization of Hamsters and Dogs against Experimental Leptospirosis. K. T. Brunner and K. F. Meyer. Quantitative Studies on Diphtheria Prophylactic and Some Considerations on the Assessment of Antigenicity. E. Carlinfanti. Biophysical Studies of Blood Plasma Proteins. XIII. Analysis of Immunological Heterogeneity of Human Gamma Globulin Fractions. Melvin Cohn, H. F. Deutsch and L. R. Wetter. Relation of Nutritional Deficiency in Man to Antobody Production. Henry H. CONTENTS V

A Physiological Study of Virus Parasitism. I. A Method for Determining the Oxygen	
Uptake of Individual Embryonated Eggs. Wm. F. McLimans, R. A. Siem and	
V. R. Scholljegerdes	463
A Physiological Study of Virus Parasitism. II. The Effect of Environmental Tempera-	
ture on the Rates of Oxygen Consumption of Normal Eggs and Eggs Infected with	
Newcastle Disease Virus. Wm. F. McLimans, R. A. Siem, B. C. Mark and E. Pinska.	475
The Zone of Localization of Antibodies. VIII. Some Properties of the Antigen Respon-	
sible for the Renal Localization of Anti-kidney Serum. Herman N. Eisen and David	
Pressman	487
Amino Acids Present in Allantoic Fluid Proteins from Chick Embryos Infected with	
Influenza Virus. Seymour S. Kalter	499
Studies with the Rho (D) Antigen. Calderon Howe and Robert Rustigian	505
