"The gratifying demand for the Fifth Edition made it necessary for the publishers to call for a new edition earlier than anticipated. The authors have responded by making a thorough revision of the text—more drastic than appeared to be required at the outset. New material has been added, especially in the chapters on Smallpox Vaccine, Poliomyelitis Vaccine, Combined Active Immunization, Immunization Schedules and Personal Medical Records. The illustrations have also been revised and brought up-to-date."—*From the Preface to the Sixth Edition*
